

RECIPE:

How to Make an Inflation Reduction Act Birthday Cake

By [Clean Energy for America](#), the voice for the rapidly emerging clean energy workforce.

INGREDIENTS:

You will need:

- 20 **tax credits** and incentives that lift up American businesses and workers¹
- 4 **tax credits** and incentives that cut costs for American families²
- 9 million American workers for **newly created jobs**³
- Thousands of dollars in **annual savings** for the average family⁴

CAKE:

Steps to Rise America's Clean Energy Jobs:

1. Combine the **Advanced Manufacturing Investment Credit** and **Advanced Manufacturing Production Credit** to spur domestic manufacturing.
2. Stir the **Clean Electricity Investment Credit** and **Clean Electricity Production Credit** to boost resilient clean electricity generation.
3. Separate the **Clean Fuel Production Credit**, **Clean Hydrogen** tax credits, the **Credit for Carbon Oxide Sequestration** and more to support emerging technologies and innovation in America.
4. For equitable growth, mix in tax credits, loans and grants for rural communities and environmental justice.
5. Bake for ten years or until 9 million good-paying American jobs are created.

SUCCESS:

Steps to Put it Together:

1. Don't allow cooling, in order to keep the clean energy jobs booming.
2. Glaze, providing thousands of dollars in annual cost savings for America's families
3. Enjoy your made-in-America manufacturing boom.

ICING:

Steps to Make Sweet Savings for Families on their Bills:

1. Use clean vehicles tax credits to help families save on purchases of electric vehicles
2. Add in the **Energy Efficient Home Improvement Credit** for families to buy more energy efficient appliances.
3. Incorporate the **Residential Clean Energy Credit** for getting a clean energy source for your home or business.
4. Allow to sit, as American families save on their energy bills.
